

# Farms of Crawley

**Before the New Town was built, most of the land around the town was farmland. The map shows the main farms of 1948. Use the map to help you to fill in the spaces in this text.**

Much of Crawley New Town is built on old \_\_\_\_\_ land. The land was bought by the government for the town. The town centre area was built on part of the old \_\_\_\_\_ farm in the middle of the New Town area.

Lots of the names of the farms are now used as road \_\_\_\_\_ in the New Town. Buckswood Drive in \_\_\_\_\_ was named after Great \_\_\_\_\_. Also, Ewhurst Place Farm gave its name to \_\_\_\_\_ Road in West Green. Other farm names were used to name the \_\_\_\_\_. The main two were Broadfield Farm and \_\_\_\_\_ Farm. They were used to name the neighbourhoods of \_\_\_\_\_ and Furnace Green. The neighbourhood of Ifield kept the name of the \_\_\_\_\_ that had been there for hundreds of \_\_\_\_\_. It was built on the ground of \_\_\_\_\_ farms: Ewhurst Place Farm and \_\_\_\_\_ Farm.

Tilgate was built on one of the biggest farms in the area: \_\_\_\_\_ farm. The industrial area of Crawley New \_\_\_\_\_ was built on land in the \_\_\_\_\_ of the town, on the land of \_\_\_\_\_ farms.
